Tax ID Number: Pending

Who Are We?

We are Team 5104, a FIRST Robotics Competition (FRC) team from Pacific Grove High School known as the BreakerBots. Coach Roby Hyde started our team in 2013 with the goal of providing a welcoming space for students who shared an interest in STEM. Since then, our team has grown to 6 mentors and 25 active students, with approximately 40% of them women. Our focus has expanded beyond science as well; we now have students working on business, project management, communications, and art.

What Do We Do?

We participate in FIRST's worldwide "varsity sport for the mind." Each year, the team has six weeks to design, build, and program a robot to compete in FIRST's challenge competition. Beginning in January, team members typically work 20-30 hours per week outside of school prototyping, testing and building their robot. In the spring, they compete against other teams in the Silicon Valley area in two regional events. The last two years, the BreakerBots have qualified for and competed in the FIRST World Championship in Houston, Texas.

Achievements

2014 - Judge's Award, Cal Games

2016 - Tournament Finalist, Cal Games

2017 - Tournament Finalist, Central Valley Regional

2017 - Alliance Captain, Houston World Championships
